DEMONSTRATIONS

9TH JUNE 2022 • AACHEN, GERMANY

CALL FOR DEMONSTRATIONS

In addition to the conference program, demonstrations of scientific and technological achievements related to mobility are also welcomed at IV22. For this purpose, the conference committee has booked exclusively for you the Aldenhoven Testing Center (ATC) to demonstrate your novel technologies and innovative prototypes. The ATC is a state-of-the art interdisciplinary testing center for mobility near Aachen. Demonstrations are not limited to research- or education-oriented work but are explicitly intended to include developments by high-tech companies.

All demonstrations are free of charge.

The topics of interest for demonstrations include but are not limited to the following:

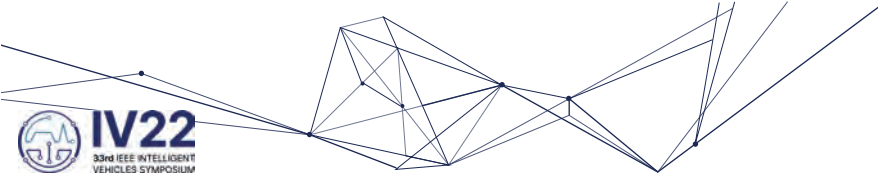

- › Novel vehicle prototypes
- › Sustainable mobility concepts and solutions
- › Innovative perception technologies
- › Novel Human Machine Interaction technologies
- › Advanced driver assistance systems
- › Connected and cooperative mobile systems
- › Smart Infrastructures

Important Dates:

<i>Call for demonstrations:</i>	27 th	December 2021
<i>Submission opening:</i>	27 th	December 2021
<i>Acceptance notification:</i>	15 th	April 2022
<i>Demonstrator reception:</i>	7 th - 8 th	June 2022
<i>Demonstration day:</i>	9 th	June 2022

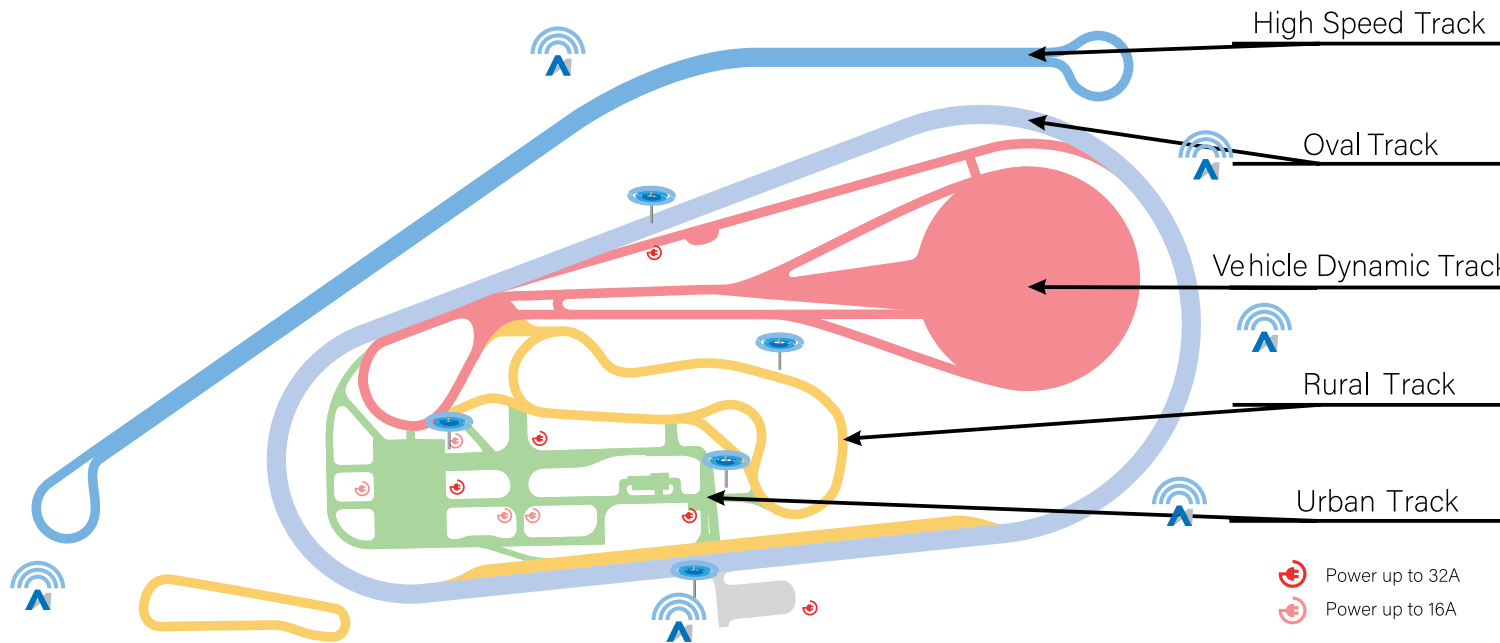

9TH JUNE 2022 • AACHEN, GERMANY

ALDENHOVEN TESTING CENTER (ATC)

All demonstrations will be organized at the Aldenhoven Testing Center. Five main tracks with registration can be used for your demonstrations to generate almost every real traffic situation. More information about ATC can be found at www.aldenhoven-testing-center.de.

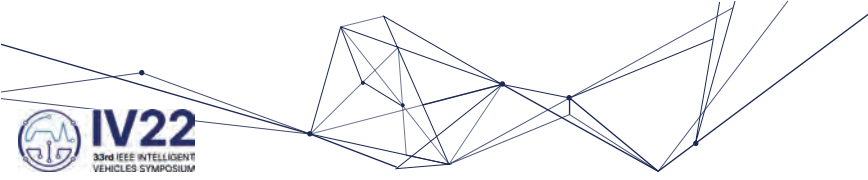

Demonstration Tracks
